

ANIL KUMAR CHOUDHARY, Chief General Manager & Head Operations, Energy Efficiency Services Limited, A super ESCO under Ministry of Power, Government of India.

Around 25 years of learning in heavy Engineering & state of the art and futuristic Industrial, Automation and Energy Efficiency Projects in Integrated Steel Plants, Power Plants, Power Utilities and Social Sector including pilot project and its commercialization.

Executed various national and International avant-garde projects with precision automation, through MECON Limited (an Engineering CPSU), in EPC, PMC, Consultancy mode in various plants viz. Continuous Casting, Rolling Mills, Reheating Furnaces, Blast Furnace, Oxygen Plants, Ladle Heating Furnaces, Heavy Automated Cranes, Circulating/ scale pit water Pump Houses, HV Substation Automation, ST&D, Gas Turbine Generators, Heat Recovery steam generators etc. Has established Energy Monitoring system for Integrated Steel Plants. Has been part of Power reform, tariff fixation, PPP assessment for various utilities. Has led various assignments of Quality and Energy audits for these sector.

Presently as Head Operations, in Energy Efficiency Services Limited have role of leading market transformation while ensuring implementation and maintenance of innovative Energy efficiency projects in ESCO or non ESCO mode nationwide/ internationally. Spearheading ground-breaking pilot projects, for further commercial scale up. Actively working for verifiable and measurable energy efficiency through IoT based Lighting automation and Industry 4.0.

Lectures/ Speakers/ Presentation/ Publications in various national and international forums for Best Practices/ IoT based innovative technologies/ Energy Efficiency in Heavy Industry, Utilities & Reforms.

Presently he is Technical Committee Member of National Energy Conservation Award, Ministry of Power, Government of India. He is also, President of Indian association of Energy Management Professionals.

He is B. Tech Electrical Engineering from IIT Kanpur, with Master in Business Law from National Law School of India, Bangalore. He has also done “Sustainable Finance” from IIM Ahmedabad.
